Purpose
The purpose of this policy is to define online learning options and how students may enroll in Minnesota Online High School (MNOHS).

Enrollment Options
Students attending Minnesota Online High School may enroll under the following options:

- As a comprehensive student in grades 9 thru 12 who takes all of their coursework at MNOHS and MNOHS is considered to be the enrolling district. Any Minnesota resident who does not have a high school diploma, is physically residing in Minnesota and under the age of 21 at the time of enrollment is eligible to enroll as a comprehensive student up until the close of a term’s enrollment window as identified in the school’s published calendar.

- As a supplemental student who takes coursework at MNOHS while remaining enrolled in their enrolling Minnesota school district.

- As a paying tuition student provided that there is space and tuition is paid for each semester course comparable to the amount MNOHS would have received through state aid. This option applies to students under the age of 21 who are not physically residing in Minnesota, are homeschooled or otherwise do not qualify for publicly funded education.

- As a student accepted through a tuition agreement with another institution.

Students under the age of 18 must have written consent of a parent or guardian prior to enrolling.

Policy
MNOHS does not limit participation on the basis of intellectual ability; measures of achievement or aptitude; or athletic ability and does not discriminate on the basis of race; color; creed; religion; national origin; sex; gender identity or expression; marital status; disability; status with regard to public assistance; sexual orientation; age; intellectual ability; measures of achievement or aptitude; or athletic ability.

The capacity of the school is defined, in part, by the total number of course enrollments available across all subjects. Annually the MNOHS Board of Directors, in conjunction with the Executive Director, will
determine the capacity of the school and set the total number of course enrollments that will be available across all subjects. Course enrollments may not exceed 110% of this cap at any point in the school year however the Board of Directors may vote to increase or decrease the enrollment cap during the school year. Any increase or decrease will be effective for the term beginning after the vote.

If the capacity of the school, as defined above, is insufficient to meet the needs of returning students and confirmed applicants, confirmed applicants will be placed on a waiting list and may participate in a lottery should course space become available after a term’s enrollment window closes and prior to the term’s add/change date.

The school shall give enrollment preference to a sibling of an enrolled pupil, to a foster child of an enrolled pupil's parents and to children of the school's staff before accepting other pupils by lot.

Lottery

Applications for any enrollment option will be accepted up until the enrollment window closes each term, after which any space in courses not needed by returning students will be made available to confirmed applicants using the following system:

- Students will be placed on a waiting list and assigned a number using Excel’s random number function.
- As course openings become available before a term’s add/change date, students will be invited to enroll based on number—the applicant with the smallest number being invited first.
- Students not placed for the current term will retain their lottery number until the add/change date for the fourth quarter passes, at which time the waiting list will expire.
- Students remaining on the waiting list will be notified that they may re-apply to MNOHS.

Admission Outside the Enrollment Window

Provided that course space exists and there is not a waiting list for entry, the executive director may continue to admit students to MNOHS once the term’s enrollment window closes under one or more of the following conditions:
Student Enrollment Policy

- The student has a medical or mental health condition, verified by their current school, that is impacting their ability to attend.

- The student is in crisis and has a letter signed by their current school counselor, mental health professional, or medical professional documenting the situation and confirming that MNOHS is a better school placement at this time.

- The student’s current school has encountered a catastrophic event that makes attending impossible or would significantly impact their academic progress.

- The student is homeless as defined in Section 725 of the McKinney-Vento Act.

Students enrolling after a term’s add/change date may be assigned a less than full-time course schedule as determined by the student, their parent/guardian and the school counselor.
